

GUBBALA VINEETHASRI

vineethasri542@gmail.com [Github](#) [Linkedin](#) PH NO : 8522825469

Objective

My passion made me faster to develop Java Full Stack functional web applications, along with strong Academic background with good analytical skills and programming oroficiency in web development and ia am a Knowledgeable 500+ lines of the java programming, competent, decisive and innovative about HTML5, CSS3 Passionste about implementing and lanuching new projects.

Education

Adikavi Nannaya University (AKNU)

2021-2024

B.sc (Computer Science) VS Lakshmi womens Degree College

CGPA:8.3/10

Intermediate (MPC) Narayana Junior College,Kakinada 2021

Percentage:63%

Skills

Programming Languages:C, Java, HTML5, CSS3, Javascript, React js ,Dart , Node Js , express Js , Typescript.

Data Base: MYSQL , Supabase, Firebase , Mongo DB

Developer Tools: Flutter framework , Google ML Kit , Git Hub, Visual Studio , Eclipse , Figma (Designing), Canva

Certificates: Web Development Internship (codsoft)- Frontend Development Internship(code Alpha)- UI/UX Design Internship (Codsoft)-Artifical Intelligence Internship Certification(BIST TECHNOLOGIES PVT.LTD (Vijaywada)).

Experience

BIST TECHNOLOGIES PVT.LTD—Artificial Intelligence-Intern—Vijaywada Feb 2024 - April 2024

Supported team members in their daily tasks, reducing workload burden and allowing for incased focus on higher-Priority assignments.

Gained valuable experience working within a specific industry, applying learned concepts directly into relevant work Situation.

Analyzed AI problems and worked with teams to develop solutions.

ASR Digital Solution — Assosiate Software Developer — Hyd

July 2025

Key Responsibilities Achievements:

Website Design Development:

Web Designed and developed the “Fly with ASR” website using HTML5, CSS3, Javascript and React.js creating fully responsive and visually engaging user interface.

UI/UX Redesign:

Redesigned the ASR Digital Solution website using Figma, improving layout, navigation flow, and overall User experience.

Tech Stack Tools:

HTML, CSS, JavaScript, React.js, Figma, Flutter(Dart Language),Supabase, Firebase, Angular.

Projects

Fly with ASR (Standard website)

Creating intuitive, responsive user interfaces using technologies like HTML, CSS, JavaScript frameworks such as I have built standards, fully responsive websites with a focus with HTML, CSS, Javascript an frameworks like React (or your framework) to create fast and user- friendly interfaces. I also improved website performance and made sure everything works well across small majar browser.

ASR DIGI (Standard website)

Developing I have developed standards websites with responsive layouts and clean UI/UX. Using HTML, CSS, Javascript and frameworks like React (or the framework you used), I build smooth, fast, and user-friendly interactions On delivering an enhances user experience.

Aarna Infra Developers (Dynamic website)

Delivering I specialize in developing dynamic and responsive applications using React Native, Next.js, and Node.js, and successfully delivered a high-performance website for Aarna Infra Developers with a strong focus on scalability, speed, and seamless user experience across all devices.

Android Application programming IDent App (Face Recognition App)

Developing a complete mobile application with an intuitive user interface using figma, focusing on user-friendly Screen design and smooth navigation. I built the app on Android studio dartpad, implementing real-time face Recognition features. Integrated supabase for backend services and Google ML kit for face detection functionality I also tested and optimized the app to ensure high performance and seamless user experience.

Android Application programming Real estate App (Aarna Infra Developers App)

Developed a complete real estate mobile application with an intuitive user interface using React Native, focusing on user-friendly screen design and smooth navigation. Built and integrated backend services using Supabase to manage ensure real-time data and authentication. Implemented core realesate functionalities with a focus on Performance, scalability, and Seamless user experience. Also tested and optimized the application to ensure reliability and high performance across devices.

Android Application programming Real estate App (Open Plots and Villas App)

Designed and developed a full-featured real estate mobile application using React Native, delivering an intuitive and user-centric interface with seamless navigation. Integrated supabase as the backend solution to enable secure authentication and efficient real-time data management. Implemented key real estate functionalitirs with a strong emphasis on performance, scalability, and reliability. Conducted through testing and optimization to ensure a consistent, high-quality user experience Across all devices.

Responsive Personal Portfolio Website

[ClickHere](#)

This project involved designing and developing a responsive personal website to Showcase skills, projects and contact information. The website was designed in figma for precise prototyping and user Interface (UI) planning,

And implemented using HTML, CSS, and Javascript to ensure a seamless user experience.
